Leaders in LED and fiber optic pool lighting ...

## LED UNDERWATER POOL LIGHTS

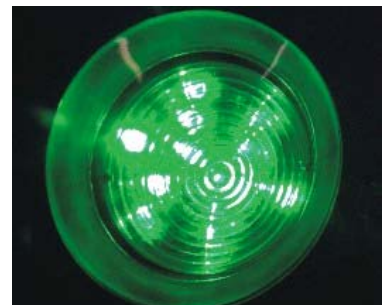

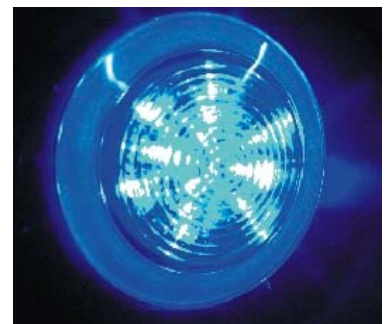

**Advanced engineering brings to market this superior LED underwater pool lighting system from the worlds' leading manufacturer of specialty pool lighting. Leading edge technology has resulted in a system that delivers more light and colour than conventional pool lights and is easier to install.**

### LED LIGHT FITTINGS

- Maintenance free
- Simple to install
- Sealed in a clear poly-carbonate housing with 20 metres of low voltage cable
- Suitable for concrete, fiberglass, vinyl and above ground pools
- LED lamp life in excess of 50 000 hours
- Available in single colour or colour changing combinations

### CONTROL BOX

- Weather resistant
- Pre-programmed with 10 lighting effects plus the ability for the user to mix own colours
- Each controller can run up to eight lights
- User friendly
- Option of remote control available
